

Wellshire Behavioral Services

Colorado's Choice for Psychiatry

Welcome to Wellshire.

Our goal is to provide to you the highest quality mental health care. Accordingly, we have recruited and brought together, Colorado's most talented health care professionals. The care you receive will be individualized and tailored to the uniqueness of your situation. To assist you, we have hired a fulltime support staff who will strive to make your visits as comfortable as possible. Finally, our pleasant office offers the confidentiality of a rear exit as well as the convenience of a full-service pharmacy.

Your visit today benefits our community. Wellshire's proceeds go to programs that help Denver's seriously and persistently mentally ill population. The Mental Health Center of Denver, a non-profit corporation, is able to take one homeless person with mental illness off the street everyday. However, for every one person helped, two people are turned away. By simply receiving care at Wellshire, you contribute to funding that will allow more people with mental illness to have access to valuable services.

We value your business and have worked hard to ensure you have the best possible experience. To keep our costs low, we rely on referrals generated from positive patient feedback. If your experience met or exceeded your expectations, then please tell your primary care physician, family members, and friends. Thank you for choosing Wellshire, and we hope that our involvement in your story is a positive one.

Sincerely,

Travis Runnels
Practice Representative
